482-1-147-.11 Effect of disciplinary actions.

(1) The willful violation of any material provision of this chapter may subject a licensee to an administrative proceeding.

(2) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, an applicant may be issued a license on a probationary basis or an existing licensee may be placed on probation for a specified period of time or until certain specified conditions are complied with. A licensee on probation is allowed to become or remain licensed and to renew an existing license, as applicable, if the licensee has complied or is complying with the conditions specified in the settlement agreement, consent order, or other order imposing the probation during the stated term of the probation. During the term of the probation, the licensee remains subject to all applicable requirements of the Insurance Code, including, but not limited to, requirements concerning continuing education and license renewal. If so stated in the settlement agreement and consent order or in the order imposing the probation, failure to

ALABAMA INSURANCE REGULATION
Chapter 482-1-147

comply with the conditions set forth in the probation order may result in the immediate suspension or revocation of the license without further administrative proceedings.

(3) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, the license of a licensee may be suspended for either a specified period of time or until certain specified conditions are complied with subject to the following:

(a) During the term of the suspension, the licensee may not engage in any actions or activity for which the license is required, but remains subject to all applicable requirements of the Insurance Code, including, but not limited to, requirements concerning continuing education.

(b) A suspended license may not be renewed if the renewal date occurs during the suspension term.

(c) A suspension is lifted upon expiration of its term or, if based on compliance with specified conditions, by an order issued upon the licensee's showing that the conditions have been met or complied with, or by an order issued after consideration of an application to lift the suspension has been submitted by the licensee. Upon lifting of the suspension, the license is deemed reinstated unless the license has expired or has otherwise terminated during the suspension term.

(d) If the license has expired or otherwise terminated during the suspension term less than twelve (12) months before the date on which the suspension is lifted, the licensee may immediately apply for a license without complying with any applicable prelicensing course and examination requirements. If over twelve (12) months have elapsed between the expiration or other termination of the license and lifting of the suspension, the licensee must comply with any applicable prelicensing course and examination requirements prior to applying for the license.

(4) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, the license of a licensee may be revoked subject to the following:

(a) The Commissioner's acceptance of a "voluntary surrender" of a license in lieu of administrative proceedings to revoke the license is deemed a revocation for purposes of this section irrespective of whether the settlement agreement and consent order or other order, or information provided by the Department to the NAIC characterizes the action as a "revocation."

(b) From and after the date of revocation, the licensee may not engage in any actions or activity for which the license is required.

(c) A person whose license has been revoked must apply to the Commissioner for permission to apply for any form of license issued through the Department. Such application cannot be made before expiration of the later to occur of two (2) years after the revocation date or such longer period as may be specified in the revocation order. The application may be in the form of a letter addressed to the Commissioner with such attachments as the applicant may deem appropriate. Whether to grant such permission is

ALABAMA INSURANCE REGULATION

at the sole discretion of the Commissioner and is dependent upon the receipt of satisfactory proof that the applicant has complied with such conditions for seeking a license, if any, specified in the revocation order, the conditions which led to the revocation have been corrected, and the possibility of recurrence of the conditions has been substantially mitigated or eliminated and should no longer be used to prevent the reapplication for license.

(d) If satisfied that reasons for the revocation are no longer present and should not be used to prevent the applicant from again becoming licensed, the Commissioner shall issue an order authorizing the applicant to again apply for a license. The applicant must comply with any applicable preclicensing course and examination requirements as if the applicant is initially applying for a license prior to applying for the license.
